

ROHULLAH SABERI

Software Engineer

+93 771 578 785 | rohullahsaabiry@gmail.com | rohullah.ariasoft.co | [GitHub](#)

Professional Summary

Software engineer with 4+ years building C# / ASP.NET Core web and WPF desktop applications. Co-founder of Aria Soft, with experience across education, finance, and healthcare, including examination systems supporting 35,000+ students across 115+ schools.

Work Experience

Software Engineer & Product Manager [@ Kabul Code Lab](#) *Oct 2025 – Present*

- Build ASP.NET Core MVC hospital software and a C#/SQL Server Hawala and currency exchange system.
- Lead a five-member team, translating stakeholder needs into features and overseeing code quality and delivery.
- Run web, database, RabbitMQ and MailHog services in Docker; use GitHub Actions for deployment.

Software Engineer @ Sadaf Educational Institution *Apr 2024 – Oct 2025*

- Developed a C# examination system with report cards and class, grade-level, school and teacher reports.
- Improved MySQL relationships for monthly exams covering 35,000+ students across 115+ private schools.
- Gathered stakeholder requirements, implemented feedback and maintained system reliability.

Co-Founder & Software Engineer [@ Aria Soft](#) *Mar 2022 – Present*

- Built Aria OMR in C#, WPF/MVVM, Dapper and MySQL to automate answer-sheet processing and exam results.
- Built ECMS for student records, finances and scheduling using C# and SQL Server; created reports with Entity Framework and FastReport.

Technical Skills

Development: C#, ASP.NET Core, MVC, Razor Pages, Blazor, WPF/MVVM
Data & Reporting: SQL Server, MySQL, Entity Framework, Dapper, FastReport
